Subject: SC deserves Uber

To whom it may concern,

I have used Uber only once, but it was well worth it. This year on New Year's Eve , a night when taxi prices are notoriously high. A couple of friends and I took an Uber car from the Yorktown to downtown Charleston, a ride that was less than two miles. We were charged \$15 dollars. Several minutes later, some other friends that I was with took a Yellow Cab from the Yorktown to the same downtown location and were charged \$100!

On a separate occasion, last week I took a cab five blocks within peninsular Charleston. I'm sure you are aware that it is the law that taxis are only allowed to charge a \$5 flat rate plus \$1 per additional passenger within peninsular Charleston. For the five passengers, the cab driver tried to charge us \$18 when the fare should have only been \$10.

As the Public Service Commission it is your duty to protect the public and serve the public's best interest. By issuing a Cease and Desist to Uber in South Carolina you are doing a huge disservice to the people of this state. South Caroline's citizens deserve the right to choose the better car service, Uber: the car service that doesn't overcharge its customers at every opportunity, the car service that holds its drivers accountable, and the car service that provides more fair and more enjoyable rides. Unless there is a more effective way to regulate and hold taxi drivers accountable for their actions in the manner that Uber does, I do not see how the PSC can maintain the Cease and Desist order without compromising the rights of the citizens of South Carolina. Please consider the harm that you are doing to the public.

Sincerely,
Leslie Jordan

Subject: Uber in SC

Hi -

I think SC should have the right to allow allow Uber drivers. Growing up in SC, I felt like the state was always "behind" in new technologies, advancements, and progress in general. Allowing Uber would be a great stride for the state and valuable to the citizens.

Thank you,
Jessica Stewart

Subject: Uber

I've been using uber for over a year now and it's changing the way consumers expect quality and service. Personally use it about 20+ times a month in multiple cities each month. To put it mildly, cab services are antiquated, dirty and generally unreliable making it "thanks to uber" a service I will no longer support. We travel to sc very regularly and spend thousands a year in your states economy which as of this email and until you reverse your order will no longer happen.

Subject: I support Uber

I am a native South Carolinian living in Mount Pleasant SC. I am a registered voter, have a Masters degree and work full time. I fully support Uber and disagree with your decision to halt Uber services. Please use reason, drag us out of the dark ages and allow ride sharing services. I have used several Charleston taxi companies and all pale in comparison to the excellent services I've received from Uber.

Thank you for your time and reason
